PROFESSIONAL SUMMARY

Full-Stack Developer and UX/UI Designer pursuing a bachelor's degree in Information Systems at UFLA. At SIDAGRO, a government animal and plant health system for IMA, I design interfaces in Figma and implement them in React. I also develop Só+1, a live amateur football management SaaS, contributing to its API and front-end. In applied AI, I built Briefly AI in n8n and an Alexa integration with OpenAI.

PROFESSIONAL EXPERIENCE

UI/UX Designer (Research Fellow)

Jul 2025 - Present

FUNDECC / GEDAI Laboratory

- Design and develop SIDAGRO interfaces in Figma and React, including registration screens, prototypes, and integrated workflows, in direct collaboration with the team.
- Evaluate interfaces using WCAG accessibility principles and create visual identities for laboratory materials.

Designer & Marketing Manager

Jan 2025 - Apr 2026

Emakers Júnior

- Worked across marketing, documentation, people management, and design delivery for the junior enterprise.
- Led the design of an e-commerce platform for a real client, my first project outside an academic setting.

SELECTED PROJECTS

DEV · AI & SERVERLESS

Alexa AI Bridge

github.com/gxbreus/alexa-ai-bridge

- Built an Alexa integration with OpenAI in Python, deployed on AWS Lambda, with web search before responses and conversational context throughout the session.
- Implemented error handling, time limits, and automated tests using the Alexa Skills Kit and Responses API.

Python · AWS Lambda · OpenAI API · Alexa Skills Kit · Pytest

DEV · FRONT-END

SIDAGRO - Front-end

- Develop and maintain the front-end of SIDAGRO, IMA's government animal and plant health system, building reusable components and consuming REST APIs across vaccination, revenue, product, and property modules.

React · TypeScript · MUI · Vite

DEV · FULL-STACK

Só+1

app.so-mais-um.com

- Live SaaS platform for organizing amateur football. Contribute to the API (inventory control, Stripe subscription plans, and data export and anonymization for LGPD compliance) and the front-end (Player areas, Admin/Owner dashboards, and real-time SSE notifications).

React 19 · TypeScript · Node.js · Express 5 · Prisma · PostgreSQL

SELECTED PROJECTS - CONTINUED

DEV · UX/UI

GEDAI Website - Institutional Platform

- Implemented GEDAI's institutional website from Figma layouts in React and TypeScript, covering 27 navigable routes across public pages, an internal area, and administrative interfaces.

React TypeScript Vite Figma

DEV · FULL-STACK

Fazenda Valenza - Farm Management System

- Built the new architecture for managing fields, activities, and coffee lots: React/TypeScript on the front-end and FastAPI on the back-end, with public QR-code traceability.
- Validated 37 automated API tests and 36 desktop and mobile interface journeys, covering operational and administrative flows.

React TypeScript FastAPI PostgreSQL Playwright

DEV · AI · AUTOMATION

Briefly AI - Brief Generator

github.com/gxbreus/briefly-ai

- Built an n8n workflow with OpenAI that turns vague requests into structured briefs, separates facts from assumptions, and keeps human review, feedback-driven refinement, and a decision history.

n8n OpenAI API Structured Outputs Docker JavaScript

UX/UI · LEADERSHIP

Essay Writing Platform Redesign

- Worked as UX/UI Designer and Design Coordinator, leading the redesign of workflows for an EdTech essay-review platform and delivering a complete developer handoff.

Figma EdTech Leadership

Education

Bachelor's Degree in Information Systems
UFLA · 2024 - Present
Expected graduation: 2028

Courses

- Figma - UX/UI (Udemy)
- Web Development Bootcamp (Udemy)
- Digital Accessibility (Todos na Web)
- Responsible Prompting (Santander Open Academy)

Skills

TypeScript · React · Node.js · Express · Prisma · PostgreSQL

Python · AWS Lambda · OpenAI API · n8n · Docker

Git · Automated Testing · Scrum

Figma · Design Systems · Prototyping · WCAG

Languages

Portuguese - Native

English - Advanced
